

003 Distribution Box

Overview

The BY-H003 is a 16-core outdoor FTTX fiber distribution box for fiber termination, splitting, and distribution in FTTH/FTTX networks. Featuring a durable ABS enclosure and IP65 waterproof protection, it is suitable for outdoor installations requiring reliable dust and water. For installation flexibility, the Liebert GXT4 UPS's (5kVA to 10kVA) allow you to choose from several different input/output power wiring configurations made possible by the use of removable power distribution boxes (PODs) that simply plug into the rear of the UPS. For installation flexibility, the Wire connector lug assemblies offer a safe, convenient way of splicing cables, providing a fixed junction tap-off point or splitting primary power into secondary circuits. Typical applications include heating, air conditioning and refrigeration systems, elevator systems, material handling. The Cable Techniques Battery Bud II-USB is a super-small modular DC distribution box that will split power from a single battery source via five Hirose 4-pin outputs. Read more We've left this page up for reference only. The internal wiring consists of 1.5 mmsq (16 AWG) silicon cable as standard. Each side with an extra. To add the following enhancements to your purchase, choose a different seller. \$ {cardName} unavailable for quantities greater than \$ {maxQuantity}. It can be mounted onto the 19" profiles exactly where required. Description: For circuit breakers, switches or sockets installed in racks. DIN rail adjustable in depth by 15 mm.
