

Chilean Optical Cable Duct Construction

Overview

On June 4, 2025, Chile's government and Google formalized an agreement to build the Humboldt Cable, a submarine fiber-optic line that will directly connect South America and the Asia-Pacific region. This project, first outlined in 2016 and developed through public-private partnership, will run. In 2020, the Chilean government announced a plan to construct a subsea cable to connect Chile and Asia, followed two years later with an announcement to study the feasibility of a subsea cable between Chile and Antarctica. These projects offer opportunities to U. Southeast Asia Japan Cable (SJC) 4. Faster Fiber. Desarrollo País, a state-owned corporation mandated to execute infrastructure projects in an agile and efficient manner, and Google, the technological giant, announced the beginning of a strategic alliance with the aim of establishing a Special Purpose Vehicle (SPV) for the Humboldt project, an.
