

Data Center ABB Solution

Overview

ABB provides a robust electrical and digital portfolio that allows data centers to guarantee optimal performance while effectively managing energy use and other related resources. ABB's Control Room offering includes a comprehensive range of solutions designed to optimize the operator workspace for critical 24/7 processes across various industries. The control room is considered one of the most critical areas in any facility, impacting daily decision-making and overall. Discover what ABB offers for increased data center cooling efficiency without compromising on power quality. In the dynamic, fast-paced data center industry, a passion for change is essential. This data center webinar will discuss new challenges and innovative design and technology strategies to. Zurich, Switzerland - May 11, 2026 - ABB is expanding its grid infrastructure and electrification investments across Europe as rising AI data center demand places increasing pressure on power distribution networks and medium-voltage systems. As artificial intelligence, sustainability, and edge computing reshape the digital landscape, data centers.

Article Content

ABB Data Center Solutions

To realize sustainability in data centers, facilities must define and implement definitive ways to achieve energy efficiency, and energy conservation – for its customers, society, and the planet.

Data Center Power Market Research Report 2025-2030: Lucrative ...

The global data center power market is projected to grow from USD 35.14 billion in 2025 to USD 50.51 billion by 2030 at a 7.5% CAGR. This growth is driven by rising sustainability goals and ...

ABB Data Center Solutions

As a technology leader in the field of data centers, ABB provides innovative and sustainable solutions that provides reliable energy and crucial insights to enable mission critical intelligent operations.

New 500-petaflop data center operates with innovative ABB power solution

ABB is supplying innovative power distribution solutions for data centers worldwide as they scale and deploy artificial intelligence (AI). The latest, located in Sichuan province, China, will

ABB shares surge as data centre business boosts outlook

ABB shares hit an all-time high on Wednesday after the Swiss engineering group raised its full-year sales and profit forecasts, boosted by surging demand from data centres.

Cloud Computing and Data Center Automation

ABB enables cloud operators to monitor, control and automate workloads, energy management and costs in data centers via industrial-grade Data Center Infrastructure Management (DCIM) platform -

Data Center Infrastructure Management (DCIM) Tools

Nlyte is a software designed for data center infrastructure management, focusing on providing organizations with tools to monitor, manage, and optimize physical and virtual assets within data

Global Data Center Industry Sales Manager, Low Voltage System

Bewerben für Global Data Center Industry Sales Manager, Low Voltage System Drives bei ABB in Neu Berlin, Wisconsin, Vereinigte Staaten von Amerika. Vertrieb, Marketing & Kommunikation bei ABB

ABB expands power technology partnership with Applied Digital for AI ...

ABB has expanded its partnership with Applied Digital, a builder and operator of high-performance data centers, to supply power infrastructure for the company's second AI Factory

ABB Ability™ Data Center Automation

ABB Ability™ Data Center Automation is ABB's industrial solution for on-premise and hybrid cloud environments. At a base level, it is an integration and automation

Data Center Solutions Provider

Our class-leading data center power solutions will keep your operations running 24/7. They're space-saving, time-saving, energy-saving, cost-saving and infinitely scalable.

Egypt Data Center Market Investment Analysis Report 2026-2031

The Egypt data center market is set to expand at a CAGR of 18.97% from 2025 to 2031, fueled by strategic regulatory support and a robust digital economy agenda as articulated in the ICT

Latin America Data Center Construction Industry Outlook 2026-2031

The Latin America data center construction market is projected to grow at a CAGR of 14.92% from 2025 to 2031, driven by sustainability initiatives and digital transformation. Governments

ABB Data Center Server Room Solutions

Power alone isn't enough — your IT racks need protection and transparency. Our pre-tested and pre-certified Remote Power Panel solutions offer modularity, energy monitoring, and plug-in ...

Always On: Scaling the Future of Data Centers | ABB

From fuel monitoring to airflow management, ABB's solutions help data centers operate with greater confidence, flexibility, and long-term resilience—meeting growing digital demands in a rapidly

ABB to develop next-generation AI data centers with NVIDIA

Zurich: ABB announced that it is accelerating the development of gigawatt scale next-generation data centers in collaboration with NVIDIA. Innovation will focus on the development and

ABB Expands Europe Grid Infrastructure for AI Data Center Growth

Zurich, Switzerland - May 11, 2026 - ABB is expanding its grid infrastructure and electrification investments across Europe as rising AI data center demand places increasing

Digital Data Center Operations | Data Centers | ABB

Class-leading data center power solutions will keep your operations running 24/7. They're space-saving, time-saving, energy-saving, cost-saving and infinitely scalable.
