

Distribution Box 8060

Overview

A rugged Exact8 distribution box with 10 M8 ports and M12 home-run connection, designed to simplify field wiring and consolidate multiple sensor signals. Ideal for modular machine installations requiring reliable, waterproof junctions. Technical Specs: 10xM8 ports, 3-pole, M12 12-pin input, 24 VDC. Low voltage distribution box- JXF series Overview JXF Series distribution box is a kind of distribution equipment with various control functions assembled based on the type, specification and quantity of components. The HTB8060 Mini 16 Core Fiber Optical Splitter Distribution Box is designed to provide quick and flexible fiber access and distribution in FTTH and FTTx networks. It supports both splicing and pre-connected PLC splitter installations, offering a compact, robust, and waterproof solution for up to. The Sindr Stainless Steel Maintenance Power Socket Box SIN8060-633 (800x600x250mm) is designed for heavy-duty industrial and commercial applications where secure and reliable power distribution is needed. Built with premium stainless steel, this box ensures durability and resistance to corrosion.
