

Fire cable tray accessories

Overview

In addition to the covers, optional accessories in various materials and coatings are available to supplement the cable support system, e. gutter connectors, connecting plates, separating strips and protective rings. Effective protection of cable systems around the world: our tried-and-tested FLAMMOTECT-A and DG-CR 0.7 products are successfully used to protect cables in high-rise buildings, industrial buildings, and offshore facilities as well as in sensitive areas, such as hospitals, airports, production. Cablofil cable tray is the preferred choice for the cable containment of low and high voltage electric cables where fire resistance is crucial - this includes cable basket tray systems for Prysmian FP (FP400 and FP600) and Draka Firetuf type cables. Catalogue for cable trays, mesh cable trays, cable ladders, wide-span systems. Meka Pro has tested and continues to test its products and cable management systems' fire resistance with the cables installed and connected according to the temperature curve in the EN 1363-1 standard. Meka Pro's manufacturer assurance is based on tests that are carried out, not just on simulation. Our range of trunking and cable tray protection products provide effective fire protection for pipes, cables and trunking within floors, walls and ceilings.
