

How much does a brand new optical cable cost

Overview

Fiber-optic cable materials typically cost \$1 to \$6 per linear foot, depending on fiber count and cable type. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Single-mode fiber costs less per foot than multimode fiber, but it requires more. Let's be real: If you are wondering “how much does fiber optic cable cost” for your next project, you've probably seen quotes that make zero sense. One supplier in your inbox promises \$0.05 a foot, while a domestic distributor is asking for ten times that. In this article, Fibconet will explore the factors influencing the cost, the average price range, installation costs, and tips for saving money when purchasing fiber optic. Buyers typically pay for fiber optic cable by length, fiber type, and installation complexity.
