

Is the Global Energy Interconnection a core journal

Overview

We are delighted that Global Energy Interconnection is now indexed by the Emerging Sources Citation Index (ESCI). As a new index in the Web of Science™ Core Collection, ESCI expands the citation universe and reflects the growing global body of science and scholarly activity. The Global Energy Interconnection (GEI) Journal publishes original research on theories and developments as well practical applications on principles of large scale low carbon energy generation, transmission, distribution & storage technologies, global energy interconnection & system developments. The Global Energy Interconnection is the only academic journal in English version focusing on the theme of global energy interconnection in the world, and is also a flagship journal that is shared with the international community.
