

Laser Diode Matrix Module

Overview

Laser Diode Modules (LD Modules) provide a fully integrated laser solution, combining a laser diode, lensing, thermal management, and electrical interface within a compact, user-friendly housing. Whether it is diodes for extremely high reliability applications such as LiDAR pumping or high-power pump modules for industrial and security applications, or customized laser diodes for scientific applications, TRUMPF Photonics is your OEM design and manufacturing partner of choice. With power ranges. From plug-and-play, compact UV, visible, and near-IR lasers, to top hat profile lasers, to wavelength stabilized modules, Coherent diode laser modules offer the highest quality performance with proven reliability for diverse applications. StingRay and BioRay diode laser modules are compact lasers. The LDM Series of compact laser sources are well suited to benchtop optical experiments. They are available at six wavelengths: 405 nm, 635 nm, 670 nm, 785 nm, 850 nm, and 1550 nm. 8" housing contains a Fabry-Perot laser diode with a bandwidth typically around 1 nm, collimating. □□ For purchasing, use the RP Photonics Buyer's Guide for laser diode modules. It provides an expert-curated supplier directory, buyer-focused technical background information, and structured selection criteria to support professional procurement decisions. Please see our Laser Diode Module Guide for additional.

Article Content

Diode Laser Modules | Coherent

From plug-and-play, compact UV, visible, and near-IR lasers, to top hat profile lasers, to wavelength stabilized modules, Coherent diode laser modules offer the

Industrial Alignment Lasers, Laser Pointers, Laser

Berlin Lasers offers a variety of genuine industrial alignment lasers, laser pointers, laser diode modules, laser line generators, cross line laser modules, laser diodes,

Diode Array Modules

What is a diode array module? There are different technologies used for creating laser light in showlaser industry. Common ones nowadays are DPSS (Diode Pumped Solid State Lasers), that use the

Compact Red Dot Laser Diode Module 638nm D8mm 0.5mW 1mW

Diode Module Wavelength 633-643nm Power 0.5mW 1mW 5mW 10mW Operating Voltage 3V Laser Type Laser Diode Module Accessory Type Mounting Bracket key selling points High-Accuracy

Leading-Tech Laser 808 IR Diode Laser Module 808nm

Leading-Tech Laser 808 IR Diode Laser Module 808nm Estado:Usado Añadir al carrito Immediate shipping Over 6.000 satisfied customers Worldwide shipping On the market for almost 10 years

Laser Diode Modules

Laser Diode Modules Diode lasers are the most common type of laser and are used in multiple applications due to their small footprint and low cost. We offer laser

WIDE TEMP. UNCOOLED 980 nm PUMP LASER DIODE MODULE

The Coherent MLU96ZW***-7*H-series uncooled pump laser module represents continuing innovation in packaging technology to enable highly reliable pump laser sources for existing and emerging

Mini Blaue Laser-Diode Modul 450nm 5mw mit Treiber

Dieses mini blaue Laser-Diode-Modul ist für DIY-Enthusiasten und Pädagogen konzipiert. Es verfügt über eine 450nm Wellenlänge und 5mw Ausgangsleistung, eingebaut in ein kompaktes 6x10,5mm

Tungsten Alloy Electronic Packaging Material: Advanced

Laser Diode Submounts And Optoelectronic Packaging High-power laser diodes (output power 5-100 W) require efficient heat extraction to maintain junction temperatures below 60°C and

The Europe High Power Laser Diode Bar Modules Market Report

The "Europe High Power Laser Diode Bar Modules Market" is experiencing higher than anticipated demand compared to pre-pandemic levels. Additionally, this exclusive Report presents

Contact Us
