

Latest Acceptance Standards for Formal Distribution Boxes

Overview

In this article you will learn what DIN EN 13724 currently governs, which changes compared with older letterbox standards are important, what to consider regarding installation and location, and which letterbox solution suits your building. Status 2026: What applies now?

With the aim to contribute to the sustainability of packaging, the FEFCO Corrugated Packaging Recyclability Guidelines (update 2025) provide the industry with a practical set of tools to implement in the recycling of paper and board to ensure the optimal use of natural resources and minimise their. This European adoption of ISO 6591-1:2026 establishes a unified approach to determining the dimensions of empty paper sacks, ensuring consistency and comparability in manufacturing, procurement, and logistics. Scope and Requirements: Specifies dimensional designations and measurement protocols for. ISO 18616-1:2016 specifies the four main types of reusable, rigid plastic distribution boxes for general purpose application in the fields of handling, transport, storage and display of products in distribution systems from the point of manufacture to the point of retail services: a) rigid. ASTM's paper and packaging standards are instrumental in the evaluation and testing of the physical, mechanical, and chemical properties of various pulp, paper, and paperboard materials that are processed primarily to make containers, shipping boxes and parcels, and other packaging and labeling. It is the central technical reference framework for insertion openings, minimum dimensions, protection of items, security and the practical usability of domestic letterboxes. To achieve this, businesses must adhere to globally recognized standards like ASTM D642, ASTM D4169, ISO.

Article Content

Paper Standards and Packaging Standards

These standards help to identify characteristics such as chemical content, acidity or alkalinity, tensile breaking strength, peel adhesion, and water, oil, and tear resistance among others.

NIST Handbook 44: Specifications, Tolerances, and Other Technical ...
