

Monaco has no fiber optic cable

Overview

Monaco offers some of the fastest and most reliable internet connectivity in the world. The entire principality is covered by a full fibre-to-the-home network, with copper infrastructure fully decommissioned by 2024. Fibre optic access has arrived in Monaco. After three years of laying 210 kilometres of new network cables, Monaco. Since the end of January, no residents have used Monaco Telecom's copper network to access the internet. A single state-concessioned provider — Monaco Telecom — delivers residential. Monaco Telecom, the primary telecommunications operator in the Principality of Monaco, has completed the deployment of its fiber broadband network, providing 100% coverage to the entire country except for some buildings currently undergoing renovation.
