

North Korea s High and Low Voltage Complete Equipment Factory

Overview

HD Hyundai Electric, a subsidiary of HD Hyundai specializing in power equipment and energy solutions, is building a smart factory for low- and medium-voltage circuit breakers in Cheongju. The strategy is to develop this site into the world's top production base for distribution. South Korea's HD Hyundai Electric Co. announced on Tuesday that it will invest 117. The company signed an investment agreement with North Chungcheong Province and. Hyosung Heavy Industries was the first company in Korea to successfully develop a high-voltage direct current (HVDC) system using the MMC method, which is the most advanced technology for voltage converters. Building on an outstanding track. HD Hyundai Electric has served as a committed partner to its customers on their growth path in the heavy electrical machinery sector and is embarking on a new beginning.
