

Special Junction Box for Fiber Optic Cable Installation

Overview

Fiber Optic Junction Box is a lockable cross-connect or interconnects box that is designed to fit ceiling tile or below floor spaces to provide a central distribution point for passive fiber to outdoor applications. In conjunction with the mounting adapters, JUNG also offers the colour-coded Keystone modules for fibre optic cables with SC couplings, which enable the quick and safe installation of fibre optic connections. It serves as a central point for organizing and distributing. Secure yourself a fast and reliable Internet connection! Follow our simple guide to correctly install your fiber optic junction box and enjoy the benefits of a high-speed connection. Click here for all the materials and tools you need.
