

Sunshade for outdoor power distribution box

Overview

Enclosure solar shields are designed to reduce the impact of direct sunlight and solar heat gain on outdoor electrical enclosures. Sun Shield Enclosures IP66 provides protection for single or multiple instruments, preventing Electrical & electronics devices, due to temperature changes caused by solar radiation. Internal temperature, 50% lower than operating condition. Mostly applicable in desert areas. Different machines per process such as CNC Machining. To this end, Rittal offers you a portfolio of secure and robust outdoor enclosures, together with matching climate control systems, for optimum protection of your installations. As outdoor environments—from construction sites and renewable energy projects to events and shipyards—demand robust and weatherproof power.
