

Supplier Access Switch 200G

Overview

The N8510-24CD8D switch, part of FS's PicOS® data center switch portfolio, is designed to meet these needs, delivering high-density 200G connectivity, seamless multi-rate support, and robust features that enable efficient data center fabric scaling. The DIS-200G Series switches are housed in a highly resistant IP30-rated metal casing to protect them from harsh environmental conditions. The high electromagnetic compatibility (EMC) protects the DIS-200G Series from unwanted effects when operating in environments with strong electromagnetic.
