

Supplier PoE Switch 100G

Overview

The DIS-100G-10P is an industrial unmanaged switch equipped with eight 1G PoE ports and two SFP ports, providing plug-and-play simplicity for deployment. The SFP ports support long-range data transmission, removing the distance limitations of traditional Ethernet cabling. FS 100G Switches offer high programmability and scalability, designed for large enterprises and hyper-converged infrastructure (HCI) networks. Learn more! 6kV surge protection keeps all Ethernet ports unharmed from the surge. Corrosion-resistant steel casing and hardened components ensure reliable operation in harsh environments. Fanless design reduces the risk of component failure impacting MTBF, reducing maintenance and downtime costs. The market for high-performance network infrastructure is experiencing significant growth, driven by escalating demands for bandwidth and power efficiency. 100Gb Power over Ethernet (PoE) switches, combining ultra-fast data transfer with the ability to deliver power over the same cable, represent a. Velolan Networks designs and manufactures high-performance networking solutions, including PoE and Network Switches, Industrial Ethernet Switches, Optical Transceivers, and Integrated Intelligent Systems. Deployed in thousands of networks worldwide, our products enable seamless integration of diverse. Up to 28 SFP+/SFP28 ports and optional QSFP28 uplinks deliver terabit-class, non-blocking throughput - perfect for spine-leaf cores or campus distribution layers. Mainframe to intermediate frame campus connectivity with 2 terabit per second of total capacity and dynamic routing, it's the perfect. If you're in the market for a reliable 100 Gb PoE Switch, you've come to the right place! I specialize in connecting businesses with top-quality networking solutions. As a wholesaler and supplier, I understand the importance of having robust and efficient equipment for your operations.
