

## Terrifying electrical distribution box

### Overview

How to Identify: If you notice that your distribution box's breakers are hot to the touch or smell burning, it's an indication of overheating. How to Fix: Check the load on each phase of the system. When they start tripping, overheating, or making strange noises, it's more than just an inconvenience - it's your home's cry for help. In this guide, we'll walk through these. Every October brings out ghosts, ghouls, and jump scares—but for electricians, the real horror stories often hide in walls, lofts, and distribution boards. From tangled wiring to botched DIY fixes, these “electrical horrors” remind us why proper training is so important. Welcome to /r/Electricians Reddit's International Electrical Worker Community aka The Great Reddit Council of Electricians Talk shop, show off pictures of your work, and ask code related questions. EPCOR Trouble Dispatch will review and action accordingly. Older boxes are grey; newer boxes are.
