

Uses of durable cable trays in Canada

Overview

The placement of cables, ducts, and conduits can be done using cable trays – for both outside plant (OSP) and interior spaces (ISP). This allows cables and ducts to be installed quickly and readily accessed for maintenance, adding more cables/ducts, or fast removal. Canada is home to several reputable cable tray manufacturers, offering a wide variety of solutions for both small-scale and large-scale projects. Cable tray requires less labour to install than comparable conduit and wire. The T&B Cable Tray Systems® product offering includes the following products: One-piece tray and channel tray ExpressTray® wire basket tray All aluminum and steel ladder tray, as well as one-piece tray and channel tray, are manufactured at our Iberville plant in Saint-Jean-sur-Richelieu, Quebec. We. Cable trays support insulated electrical cables in industrial and commercial settings.
