

Venezuelan underground optical cable manufacturer

Overview

Starting 1995 in Barquisimeto, a city of the interior of the country, and after six years INTERCABLE is now providing services to 44 Venezuelan cities and is preparing its launch in the capital city, with a 870 Mhz hybrid fiber coax (HFC) architecture, with sub nodes of 400 homes. Starting 1995 in Barquisimeto, a city of the interior of the country, and after six years INTERCABLE is now providing services to 44 Venezuelan cities and is preparing its launch in the capital city, with a 870 Mhz hybrid fiber coax (HFC) architecture, with sub nodes of 400 homes. Welcome to Alcatel Submarine Networks, a global leader in submarine optical systems. We have made a significant mark with over 850,000 km of top-tier submarine optical systems, enough to circle the globe 21 times. Since 1994, we have been committed to manufacturing, installing, and maintaining. There are 20 Fiber optic products suppliers in Venezuela as of April, 2026. Zulia makes up approximately 40% of all Fiber optic products suppliers in. Customer need to connect the two lands with the cable install length of 5KM each phase, the water depth ranged from 13 meters to 30 meters seasonally, the site of the project is near the sea, thus requires a good performance in anti-corrosion, with the professional assistant of GL fiber cable. The company is a top manufacturer with deep subsea production discipline, and in December 2025 it announced a Sea Link HVDC submarine cable award tied to UK grid expansion plans and local factory output. That approach can translate well to fiber embedded designs where utilities and carriers both. The new plant, named Venefibra, represents an effort in the pursuit of technological sovereignty and economic diversification.
